PROFILE

I am a software developer from Barcelona. Throughout my life I have established myself as a creative-thinker with great passion for technologies. Graphic design, music and programming are some of the fields I enjoy the most. With that, I am always willing to humble myself to continue growing as both a developer and as an individual.

SKILLS

· React Native

· React JS

· Angular, Ionic

· UML & Design Patterns

· NodeJS, Express, Django

· Agile Methodologies

· Git

· Java, Python, C++

· SQL/NoSQL Databases

· Algorithm Design, Analysis & Testing

EXPERIENCE

Slashmobility (01/2022 - Current)
Software developer

Developed several apps (React Native and Ionic) and websites (React JS and Angular) including a wide variety of features such as authentication, maps, payments, chats, web sockets... integrating all of them with REST APIs.

Guidewire Software (06/2021 - 09/2021)
Consultant developer intern

Developed a website that consumed a Node JS backend which periodically imported JIRA tickets and then implemented a custom search engine for developers to find past bugs faster using keywords.
