

Marc Fernández

FRONTEND SOFTWARE ENGINEER

✉ markfb8@gmail.com | 🔗 linkedin.com/in/markfb8 | 🌐 markfb8.github.io

PROFILE

I am a Barcelona-based frontend software engineer specializing in building scalable web and mobile applications using React. I enjoy turning complex requirements into intuitive, high-quality user experiences, with a strong focus on performance, maintainability, and clean architecture. I value collaboration with design and product teams to deliver polished and user-centered solutions.

SKILLS

CODING & FRAMEWORKS	React	ARCHITECTURE & PATTERNS	Component-based design	TOOLS & SKILLS DEVOPS	Git
	Next.js		Scalable frontend architecture		CI/CD pipelines
	React Native		RESTful APIs		Cloud deployment & hosting
	TypeScript		Rendering strategies (CSR, SSR, SSG, ISR)		
	JavaScript (ES6+)		Performance optimization & web vitals		
	TanStack Query (React Query)		SEO & accessibility optimization		
	Redux Toolkit				Agile / Scrum
	Tailwind CSS				Mentoring
	Supabase				Team leadership
	Firebase				Code reviews & QA
					Cross-team collaboration

EXPERIENCE

Oracle Health (03/2024 - Current)

Software Engineer

Worked on resolving complex production issues in large-scale healthcare systems, analyzing logs, database queries, and system behavior to identify root causes. Developed a strong understanding of data flows, performance bottlenecks, and real-world user impact, while collaborating with cross-functional teams to improve system reliability in critical environments.

Titan Manager (09/2023 - 09/2025)

Co-Founder & Frontend Engineer

Designed and developed the frontend of an early-stage startup using React and JavaScript, defining architecture and building scalable component structures. Took full ownership of the frontend while contributing to product and UX decisions, focusing on performance, usability, and maintainability.

Slashmobility (01/2022 - 03/2024)

Frontend Engineer

Developed web and mobile applications using React, React Native, and Angular, collaborating with UI/UX teams to deliver intuitive and polished interfaces. Contributed to scalable frontend architecture, reusable components, and efficient API integration while improving performance and maintainability.

Guidewire Software (06/2021 - 09/2021)

Consultant Developer Intern

Built an internal tool integrating Salesforce and Jira data to streamline bug tracking and reduce duplicate issue investigations, improving efficiency and visibility for engineering teams.

EDUCATION

Bachelor of Computer Engineering

Polytechnic University of Catalonia (UPC)

09/2018 - 06/2022

Cambridge English First (FCE) - B2

Cambridge English

06/2016
